- NABERS forecasting for predictive & proactive measures
- Monthly performance reports, review and tuning

WE FOCUS ON THE THINGS THAT MATTER

- Increase building life span
- Reduction in energy bills
- Guaranteed performance
- No financial risk to the owner

Platinum Maintenance Agreement provides the tools you need to track building performance, reduce operating costs, and support NABERS as well as other sustainability initiatives.

Customers trust us to make their buildings work!

Platinum Maintenance Agreement will help you increase your building stakeholders' awareness of their energy use.

It encourages their participation and collaboration in understanding the impact of energy consumption trends by comparing energy use over days, weeks and years.

The Energy Dashboard hosts your data onsite and keeps it within your reach and control – no subscription fees, no third-party vendor setup charges.
